CUBE

SANREMO
COFFEEMACHINES

Cube is Sanremo's most **compact** machine, designed to bring professional-grade technology and performance into homes, offices, B&Bs and shops.

Boiler made of **AISI 316L stainless steel**, capacity 1.9 L. **Heat Exchanger group** with mechanical pre-infusion. **High-performance** 50 L/h volumetric pump. **Selectable water supply**: 1.8 L internal tank or mains water connection. **Energy Saving System**.

Clean lines, solid geometry and distinctive character: *Cube* is more than just an espresso machine: it is a design piece that enhances any space.

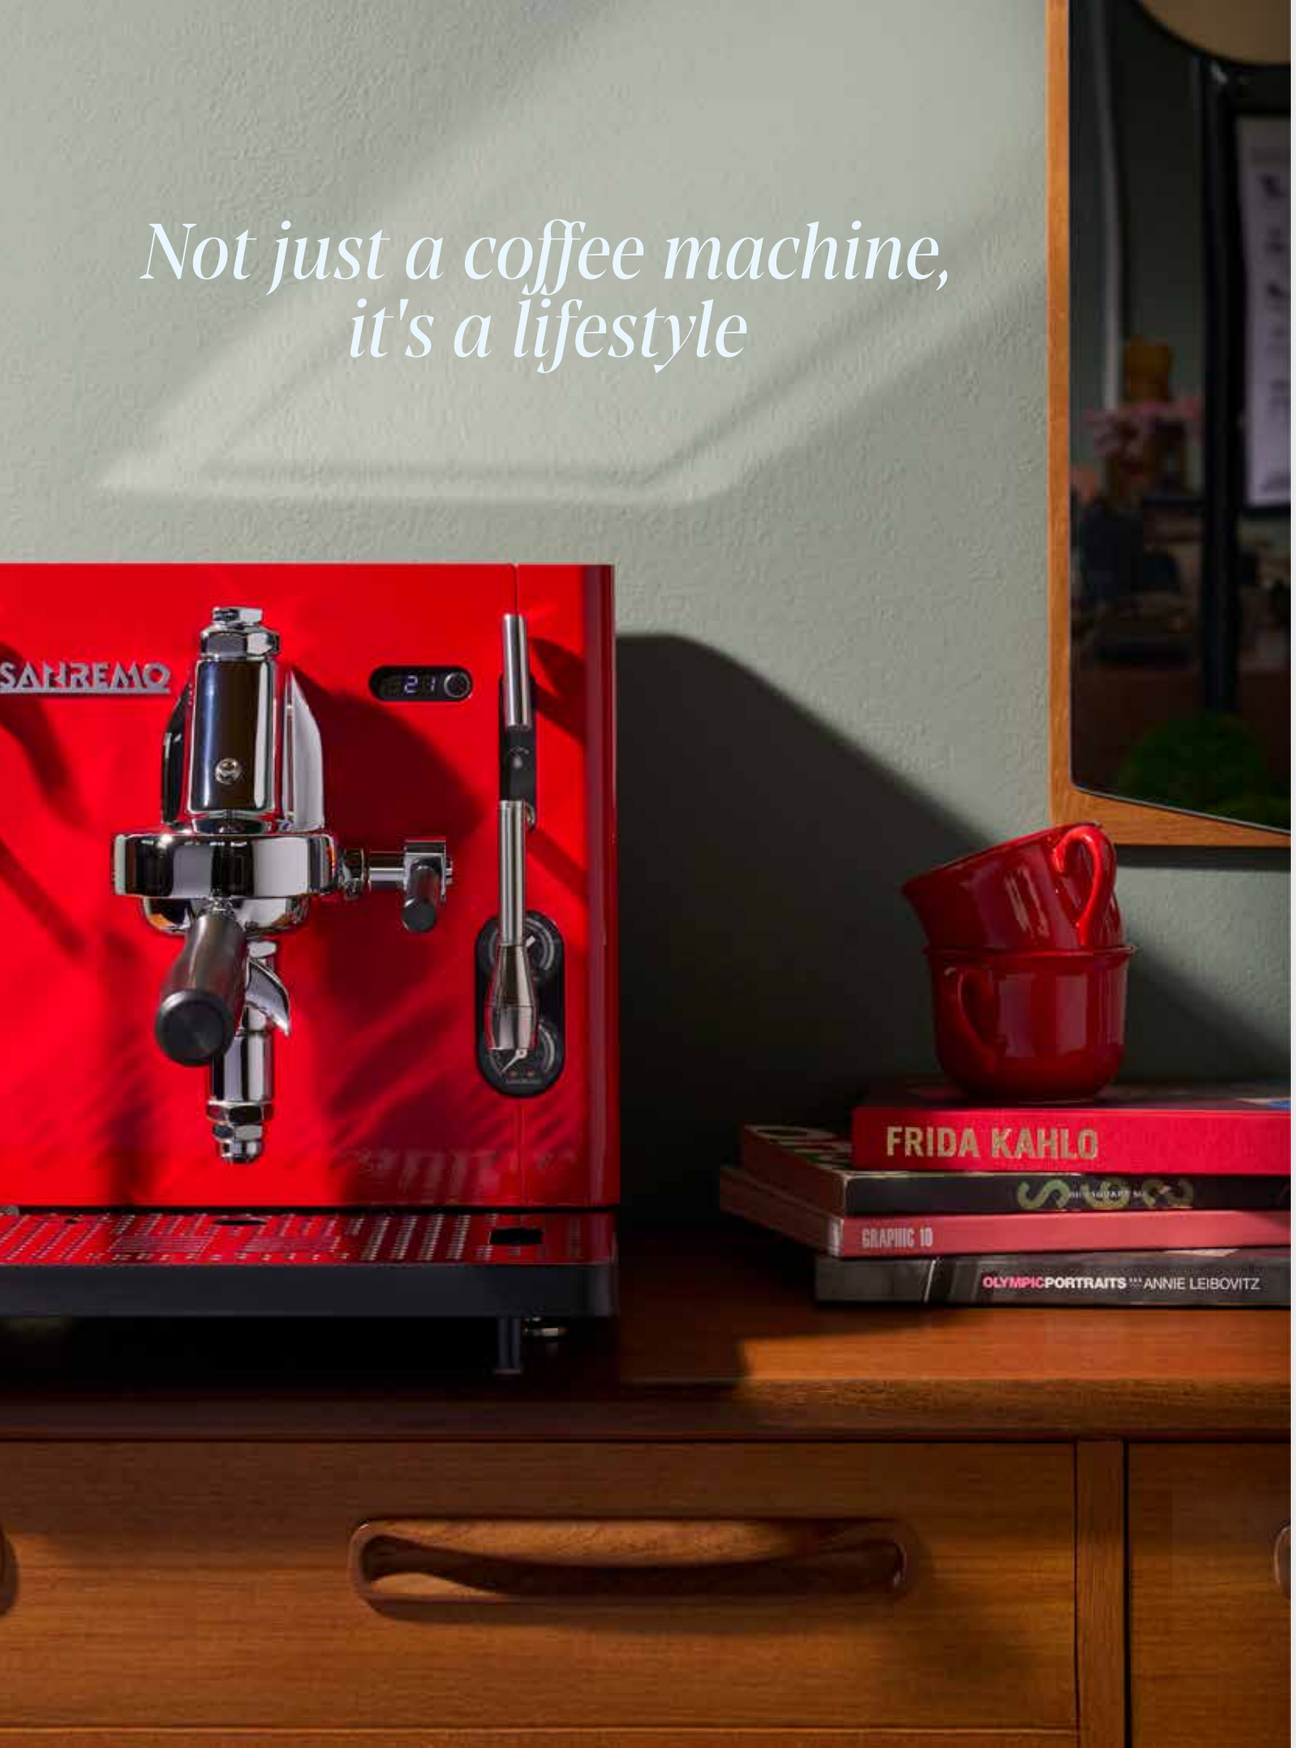

Customisation.
A wide range of colours lets you choose the finish that best suits your style and surroundings.

Quality materials.
Stainless steel body and components with highly durable industrial-grade coatings.

Ergonomic and compact design.
Its compact dimensions maximise available workspace, while the ergonomic design makes professional steam wands and portafilters easy to use.

Not just a coffee machine, it's a lifestyle

Cube is available in **two versions,** offering a choice of **different equipment options** without compromising the extraction quality of the Sanremo system.

CUBE

The fully equipped version for those seeking the ultimate Sanremo experience, without compromise.

Equipped with professional portafilters (single- and double-cup)*, it includes an **integrated Wi-Fi module** for connecting to the Web App, a **cup rail** and a **machine cover**.
It features a **complete Barista accessory kit***: milk jug, tamper, cloth and cleaning brush.

** Equipment may vary by market*

CUBE S

The streamlined, essential version.

It retains the same technical design and extraction performance, with a **simplified accessory package*** for those who appreciate a more streamlined espresso-making experience.
It features professional portafilters** (single- and double-cup) and a basic accessory kit**.

** Does not include the Wi-Fi module, cup rail or machine cover.*

*** Equipment may vary by market*

With *Cube*, even **steam control** is designed to deliver **professional-level performance.**

Cold-Touch Steam Wands.
Featuring internal thermal insulation, they reduce the risk of accidental burns and make removing milk residue easier and safer.

Steambooster.
An integrated system that boosts steam wand output for smooth, consistent milk frothing, ideal for Latte Art.

Water management.
The machine is equipped with a 1.8-litre internal water tank and can also be connected directly to the mains water supply. Integrated water level sensor.

High performance, efficient energy use.

Cube incorporates advanced engineering solutions designed to optimise energy efficiency and reduce energy consumption without compromising **speed or ease of use.**

Insulated boiler.
The stainless steel boiler's thermal insulation reduces heat loss and helps maintain a consistent temperature.

Energy Saving System (ECO).
Intelligent electronic control with standby mode and programmable energy-saving settings for periods of inactivity.

Time scheduling.
Set operating times to ensure the machine is already at the correct operating temperature when you need it.

CUBE

Cube, it fits everywhere

Power in your hands

Control at your fingertips, even remotely. The *Cube* version features an integrated Wi-Fi module and a dedicated Web App, making it easy and intuitive to interact with the machine.

Key settings can be accessed via smartphone, tablet or PC, whether at home or when managing the machine in B&Bs, boutiques, offices and other workplaces.

REMOTELY CONTROLLABLE FUNCTIONS *(CUBE version only):*

- Remote on/off and standby control.
- Boiler temperature setting and adjustment (range: 115–126 °C).
- Real-time extraction time monitoring (Shot Timer).
- Water tank level monitoring and programmable filter replacement reminders (1–12 months).
- Daily, weekly and monthly coffee and water consumption statistics.
- Weekly operating schedule.

CUBE Finishes

All models are available in **CUBE** and **CUBE S** versions.

CUBE Technical Specifications

● standard
— not included

CUBE	CUBE S	TECHNICAL SPECIFICATIONS
●	●	Digital display
●	●	Stainless steel body and frame
●	●	1.9-litre AISI 316L stainless steel boiler
●	●	High-performance volumetric pump (50 L/h)
●	●	E61 lever-operated thermosyphon group in CW510L brass with mechanical pre-infusion
●	●	Selectable water supply: 1.8 L internal tank or mains water connection
●	●	Energy Saving System
●	—	Integrated Wi-Fi and Web App control
●	—	Stainless steel cup rail
●	●	Professional portafilters (single- and double-cup) (*)
●	—	Machine cover
—	●	Basic Barista kit: cloth, cleaning brush (*)
●	—	Complete Barista accessory kit: 35 ml milk jug, tamper, cloth and cleaning brush (*)

(*) Equipment may vary by market

MAIN TECHNICAL DATA	CUBE / CUBE S	
Power supply voltage	110-120 V AC, 50/60 Hz, single-phase	230 V AC, 50/60 Hz, single-phase
Power cord	with Plug (*)	
Total Power	1500 W	1620 W
Hydraulic circuit	Heat Exchanger	
Service boiler capacity	1.9 L	
Service boiler material	AISI 316L Stainless Steel	
Temperature control for boilers and the group	Electronic, PID	
Coffee group type	Sanremo E61 lever-operated	
Dispensing group material	Brass	
Pump power / Flow rate	235 W – 50 L/h	120 W – 50 L/h
Internal tank capacity	1.8 L	
Net weight	28 kg	
Gross weight	32 kg
